1 **I. INTRODUCTION.**

2 The Judicial Panel on Multidistrict Litigation's consolidation of these cases and
3 this Court's orders to date have sought to ensure an efficient, cost-effective, and
4 timely adjudication of the substantial number of claims pending against Toyota in this
5 MDL. To this end, this Court ordered that "Lead counsel would have the
6 responsibility of preparing a consolidated complaint covering the issues in all the
7 economic loss cases." See Order No. 1 [Dkt.3], at 3 (emphasis added). Lead Counsel
8 did not do that. Rather than comply, they formulated a tactical strategy to exclude
9 many of the claims, theories, causes of action, and parties that were included in the
10 underlying complaints in the Master Consolidated Complaint [Dkt. 263] ("MCC"),¹
11 but refuse to acknowledge that the omitted claims are no longer at issue. The MCC
12 asserts claims on behalf of an extraordinarily broad purported class (all persons who
13 purchased Toyota vehicles with ETCS), but significantly narrows the legal claims
14 asserted (only California law; elimination of certain claims altogether)—likely
15 because Plaintiffs wish to pursue a strategy that they believe increases their chances of
16 obtaining class certification and the available damages.

17 Undoubtedly understanding the risks inherent in their strategy, Plaintiffs make
18 the novel proposal that they should get a second chance at all the underlying claims if
19 this "trial-run" is unsuccessful. Specifically, Plaintiffs propose that the FACC should
20 supersede and amend the claims of a handful of cases filed in California, but that, with
21 respect to the *hundreds* of other economic loss cases, the MCC should be viewed as
22 solely an "administrative device" that does not affect the omitted claims and theories.
23 See Plaintiffs' Proposed Order [Dkt. 306-1]. In other words, these omitted claims are
24 essentially in limbo for an indefinite amount of time until the claims in the FACC and
25

26 ¹ On the same day that the MCC was filed, Plaintiffs also filed the First Amended
27 consolidated complaint [Dkt. 264] ("FACC"). As explained in Toyota's Response to
28 Statement of Plaintiffs' Counsel [Dkt. 310], the FACC should be stricken in its
entirety. Accordingly, the FACC should have no impact on the underlying cases and
this brief therefore focuses on the effect of the MCC.

1 MCC play out.² Plaintiffs ask this Court to eviscerate the efficiencies created by a
2 consolidated complaint—and this entire MDL structure—and to permit significant
3 prejudice to Defendants by ordering the MCC to only selectively supersede the
4 underlying complaints.

5 Plaintiffs' intent is obvious: to make a run at the largest class possible (and thus
6 the largest recovery they can fashion), while risking nothing. If Plaintiffs are
7 successful, there would be issue preclusion in Plaintiffs' favor. If Plaintiffs' claims
8 are unsuccessful, there would be no issue preclusion with respect to the omitted claims
9 from the underlying complaints, which Plaintiffs would be free to revive without
10 satisfying Rule 15's requirements for leave to amend. The prejudice to Toyota is just
11 as obvious: Toyota will be forced to defend against an extraordinarily broad theory of
12 defect and, if Defendants are successful against these claims (whether at the motion to
13 dismiss, summary judgment, or any other pretrial phase), Defendants would then be
14 forced to defend against a second (and perhaps third and fourth) round of claims that
15 Plaintiffs could have, and should have, included in the MCC.

16 Defendants instead propose—consistent with this Court's apparent intent and
17 traditional practice—that each underlying complaint should be deemed amended to
18 comport with the MCC; that all claims asserted in underlying complaints, but not
19 asserted in the MCC, should be deemed dismissed with prejudice in each underlying
20 case; and that all defendants named in underlying complaints, but not named in the
21 MCC, should be deemed dismissed with prejudice from the underlying complaints.
22 Accordingly, Defendants urge the Court to enter the Proposed Order submitted
23 concurrently herewith. Toyota respectfully submits that its proposed Order should be
24 entered because: (1) it will create efficiencies in this litigation by ensuring that all
25 legal issues move forward simultaneously rather than piecemeal; (2) it will avoid
26 prejudice to Defendants not named in the MCC by clarifying whether claims continue

27 ² In fact, in an earlier proposal by Plaintiffs, they specifically stated that such
28 claims should be stayed. See July 28, 2010 Email from Sandra Thomas (Ex. 3 to
Gilford Dec.).

1 to exist against them; (3) it will avoid the prejudice that would result to all Defendants
2 if claims not asserted in the MCC are indefinitely stayed such that they can be re-
3 asserted at some indefinite point in the future; and (4) it will ensure that motions
4 practice and discovery are directed to all viable claims so that, at the conclusion of
5 these pretrial proceedings, no additional pretrial motions or discovery will be needed.

6 Plaintiffs' proposed Order [Dkt. 306-1] should be rejected out of hand because:
7 (1) it would permit Plaintiffs to re-assert claims that were included in the underlying
8 complaints but that were purposefully omitted from the MCC for tactical reasons
9 without requiring them to satisfy Rule 15's requirements, leading to delay, wasted
10 resources, excess cost, and prejudice to Defendants; (2) it would create significant
11 inefficiencies by allowing claims to be litigated in a piecemeal fashion; and (3) it
12 would cause significant prejudice and hardship to Defendants who risk either waiving
13 defenses or being forced to wait months or years before presenting such defenses.
14 The practical effect of the Order proposed by Plaintiffs is highly prejudicial, the
15 antithesis of the purpose of multi-district litigation, and will undermine this Court's
16 desire for a timely adjudication. Plaintiffs' proposed Order is gamesmanship at its
17 worst, in which "heads" Plaintiffs win, and "tails" Toyota loses. For all of the reasons
18 set forth herein, Toyota respectfully requests that this Court enter Defendants'
19 proposed Order, so that we may move forward with the swift resolution of this
20 litigation.

21 **II. DEFENDANTS' PROPOSED ORDER IS NECESSARY FOR THE**
22 **EFFICIENT, TIMELY AND JUST RESOLUTION OF THIS MDL.**

23 **A. It Is Proper and Appropriate for a Consolidated Complaint to**
24 **Supersede Underlying Complaints.**

25 The Court's authority to utilize consolidated complaints stems from Federal
26 Rule of Civil Procedure 42(a) and 28 U.S.C. § 1407 and is generally permitted when it
27 will result in judicial economies and efficiencies. *See, e.g., In re Equity Funding*
28 *Corp. of Am. Sec. Litig.*, 416 F. Supp. 161, 175-76 (C.D. Cal. 1976) (explaining that
Rule 42(a) 'limits the court's power to order consolidation of pleadings to instances

1 where such an order ‘may tend to avoid unnecessary costs or delay.’”). In addition,
2 consolidated pleadings must not result in “serious prejudice to the right of a party to
3 litigate its claims or defenses.” *Id.*

4 In order to ensure that judicial efficiencies are realized, numerous courts have
5 held that a consolidated complaint supersedes the claims asserted in the underlying
6 complaints. *See, e.g., In re Mercedes-Benz Tele Aid Contract Litig.*, 257 F.R.D. 46,
7 55 (D.N.J. 2009) (“[T]he amended complaint would supersede the complaints filed in
8 each of the individual Actions.”); *In re Ticketmaster Corp. Antitrust Litig.*, 929
9 F. Supp. 1272, 1274 (E.D. Mo. 1996) (“By the end of August, the parties had filed a
10 Consolidated Complaint that superseded the variety of complaints that had been filed
11 by different lawyers around the country.”), *aff’d in part, vacated in part, rev’d in part*
12 *on other grounds by, Campos v. Ticketmaster Corp.*, 140 F.3d 1166 (8th Cir. 1998); *In*
13 *re Storage Technology Corp. Sec. Litig.*, 630 F. Supp. 1072, 1074 (D. Colo. 1986)
14 (“Pre-Trial Order No. 1 . . . provided for . . . the filing of a consolidated class action
15 complaint to supersede all existing complaints in the actions being consolidated.”); *In*
16 *re Union Carbide Corp. Gas Plant Disaster at Bhopal India in December, 1984*, 634
17 F. Supp. 842, 844 (S.D.N.Y. 1986) (“The individual federal court complaints have
18 been superseded by a consolidated complaint filed on June 28, 1985.”).³ This Court
19 has likewise commented on the propriety of having a superseding consolidated
20 complaint. *See* Aug. 24, 2010 Tr. At 24, 25 (“[T]he purpose of the consolidated
21 complaint is to supersede all the other complaints and make that the operative
22 pleading, a consolidated class action complaint.”) (“Well, I am taking that position
23 [that the master consolidated complaint supersedes]. I can assure you that’s what a
24 consolidated complaint is about.”). This is precisely what Defendants propose in the
25 instant case.

26
27 ³ *See also In re Heartland Pmt. Sys., Inc. Data Sec. Breach Litig.*, CMO 1, at 10
28 (Ex. 6 to Gilford Dec.); *In re Toshiba Am. HD DVD Mktg. and Sales Prac. Litig.*,
Order, at 5 (Ex. 7 to Gilford Dec.); *In re Ford Motor Co. Speed Control Deactivation*
Switch Prods. Liab. Litig. CMO 1, at 9 (Ex. 8 to Gilford Dec.); *In re Bausch & Lomb*
Contact Lens Solution Prods. Liab. Litig., CMO 3, at 4 (Ex. 9 to Gilford Dec.).

1 *Lexecon* does not change this result. *Lexecon Inc. v. Milberg Weiss Bershad*
2 *Hynes & Lerach* held that pursuant to 28 U.S.C. § 1407, an MDL transferee court is
3 prohibited from assigning transferred cases to itself for trial. 523 U.S. 26, 28 (1998).
4 However, even after *Lexecon*, MDL transferee courts are still permitted to rule on all
5 pretrial matters, even those that may be dispositive. See *In re Phenylpropanolamine*
6 *(PPA) Prods. Liab. Litig.*, 460 F.3d 1217, 1231 (9th Cir. 2006) (explaining that the
7 power of a § 1407 transferee court includes the “authority to decide all pretrial
8 motions, including dispositive motions”). Moreover, post-*Lexecon*, MDL courts are
9 also permitted to order consolidated pleadings. See, e.g., *In re African-Am. Slave*
10 *Descendants Litig.*, 471 F.3d 754, 756-57 (7th Cir. 2006) (approving district court’s
11 decision to order a consolidated complaint notwithstanding *Lexecon*). Accordingly,
12 “[a]lthough the effect of such pretrial consolidation is not and cannot be to ‘merge the
13 suits into a single cause, or change the rights of the parties, or make those who are
14 parties in one suit parties in another,’ the consolidation of pleadings for pretrial
15 purposes is within the discretionary power of the district court, particularly in the
16 context of complex pretrial proceedings pursuant to 28 U.S.C. s 1407(a).” *Equity*
17 *Funding*, 416 F. Supp. at 176 (citations omitted).

18 **B. The Claims Not Asserted In the MCC Should Be Deemed Dismissed.**

19 In order to realize the efficiencies that consolidated pleadings can provide,
20 dispositive rulings with respect to the consolidated complaint should apply to and be
21 binding on all of the underlying complaints. See, e.g., *In re Medtronic, Inc. Sprint*
22 *Fidelis Leads Prods. Liab. Litig.*, 592 F. Supp. 2d 1147, 1154, 1165 (D. Minn. 2009)
23 (explaining that each claim asserted in the Consolidated Complaint “is deemed
24 incorporated into the Complaints in the individual actions”) (holding that dismissal of
25 the consolidated complaint results in dismissal of all underlying actions because “[t]he
26 [Consolidated] Complaint is, in essence, an amended Complaint filed in each and
27 every one of the cases in this multidistrict litigation.”); *In re Silicone Gel Breast*
28 *Implants Prods. Liab. Litig.*, 996 F. Supp. 1110 (N.D. Ala. 1997) (granting summary

1 judgment for defendant in all breast implant cases currently pending in, or later filed
2 in, removed to, or transferred, to the MDL court.); *Union Carbide*, 634 F. Supp. at
3 844 (affirming dismissal of all of “[t]he individual federal court complaints [which
4 had] been superseded by a consolidated complaint.”). This is so, even where the
5 consolidated complaint omits claims asserted in some of the underlying actions. *See*,
6 *e.g.*, *In re Fed. Nat’l Mortgage Assoc. Sec. Derivative “ERISA” Litig.*, MDL No.
7 1668, Civil No. 07-1173(RJL), 2010 WL 2940860, at *9 (D.D.C. Jul. 27, 2010) (“In
8 prosecuting the consolidated action, the co-lead plaintiffs opted to forego Kellmer’s
9 demand-made theory and instead relied on a demand-futility theory to establish their
10 standing to bring the derivative claims . . . That Kellmer disagrees with that decision
11 does not entitle him to relief from the judgment. All the shareholders must live with
12 the strategic choices of the representative shareholders ultimately charged with
13 prosecuting the derivative action on behalf of the corporation and its shareholders.”).

14 Accordingly, in order to ensure clarity, this Court should enter an order
15 specifying that claims not asserted in the consolidated complaint are dismissed with
16 prejudice. *See In re Educ. Testing Serv. Praxis Principles of Learning and Teaching:*
17 *Grades 7-12 Litig.*, 517 F. Supp. 2d 832, 837-38 (E.D. La. 2007) (issuing order that
18 “all causes of action in consolidated cases that were filed in or transferred to this
19 Court before January 20, 2005 that were not included in the master complaint would
20 be dismissed with prejudice if counsel in those cases did not move to segregate those
21 causes of action with 30 days.”); *see also In re Bridgestone/Firestone, Inc. ATX,*
22 *ATX II, and Wilderness Tires Prods. Liab. Litig.*, 129 F. Supp. 2d 1207, 1210-11
23 (S.D. Ind. 2001) (holding that the Master Complaint “shall apply to all pending Class
24 Action Cases and to those subsequently filed, removed, or transferred to this Court as
25 part of this proceeding. The Master Complaint shall be deemed to amend the
26 complaints in the Class Action Cases to reflect the content of the Master Complaint,
27 including all claims and theories contained therein.”).

1 **C. Defendants' Proposed Order Will Create Efficiencies While**
2 **Simultaneously Ensuring That Prejudice Does Not Result.**

3 Defendants' proposal ensures that the two-fold requirements of efficiency and
4 fairness are satisfied. First, following the line of precedent discussed above, under
5 Defendants' proposal, all underlying complaints would be deemed amended to
6 conform to the MCC. This would allow for increased efficiencies since all motions
7 practice could be directed to a single complaint and all discovery could be governed
8 by a single complaint. *See Mohanty v. BigBand Networks, Inc.*, No. C 07-5101, 2008
9 WL 426250, at *3 (N.D. Cal. Feb. 14, 2008) ("Consolidation facilitates discovery,
10 conserves judicial resources, and reduces the confusion and delay that result from
11 prosecuting related class action cases separately.") (citations omitted) *Equity Funding*,
12 416 F. Supp. at 176 (finding that a consolidated pleading realizes efficiencies in
13 motions practice, class action issues, and discovery management).

14 Additionally, because claims not asserted in the MCC would be deemed
15 dismissed with prejudice, Defendants' proposal would ensure that there are no orphan
16 claims waiting to be asserted at some later point in this litigation. *See Adams v.*
17 *California Dept. of Health Services*, 487 F.3d 684, 692-93 (9th Cir. 2007) (explaining
18 that in the context of claims-splitting, "[d]ismissal of the duplicative lawsuit, more so
19 than the issuance of a stay or the enjoinder of proceedings, promotes judicial
20 economy and the 'comprehensive disposition of litigation'") (quoting *Kerotest Mfg.*
21 *Co. v. C-O-Two Fire Equip. Co.*, 342 U.S. 180, 183 (1952)). This, in turn, would
22 ensure judicial efficiencies and economies because all claims would be litigated
23 during these combined pretrial proceedings and rulings on dispositive motions would
24 have finality.

25 The importance of ensuring that all of the claims in the underlying cases are
26 addressed from the outset of this case, whether through motions practice and litigation
27 or through dismissal, cannot be overstated. This is so, because Plaintiffs have
28 completely ignored the theories and claims asserted in the vast majority of the
 underlying cases. First, although the MCC discusses the floor mat and pedal recalls

1 implemented by Toyota, the MCC seeks damages based on an alleged defect in
2 Toyota's ETCS. By contrast, 121 out of 186 of the underlying class action complaints
3 assert "recall claims," separate and apart from any damages allegedly caused by
4 Toyota's ETCS. *See* Matrix of Defect Theories Asserted in Underlying Class Action
5 Complaints (Ex. 1 to Gilford Dec.). In fact, 62 of the underlying class actions
6 complaints contain no allegations whatsoever related to a defect in Toyota's ETCS
7 and instead base their theories of recovery exclusively on injuries arising out of the
8 recalls. *See id.*; *see also, e.g., Lacey Laudicina, et al. v. Toyota Motor Corp., et al.*,
9 2:10-cv-01030. Second, despite purporting to represent a national class, the MCC
10 fails to include any state law claims asserted in the underlying complaints except for
11 claims arising under California law. *See* MCC at 116 n.54. Third, the MCC fails to
12 include any RICO, negligence, or Lemon Law claims despite the fact that many of the
13 underlying class action complaints focus extensively on RICO and negligence claims
14 and most of the individual economic loss cases assert claims for violations of Lemon
15 Laws. Fourth, the MCC is a purported class action seeking damages solely for
16 economic loss, notwithstanding the fact that a number of the underlying class actions
17 also asserted putative personal injury classes. *See, e.g., McKinney, et al. v. Toyota*
18 *Motor North America, Inc.*, No. 8:10-cv-744. And, fifth, the MCC only names Toyota
19 Motor Corporation and Toyota Motor Sales U.S.A., Inc. as defendants, whereas the
20 underlying complaints bring claims against many additional Toyota entities and a
21 number of non-Toyota entities, including component part suppliers and dealerships.
22 *See* List of Defendants Named in Underlying Economic Loss Actions (Ex. 2 to
23 Gilford Dec.).

24 Defendants recognize that reconciling the various underlying complaints
25 necessarily entailed editorial discretion as to which claims and theories to assert.
26 However, Plaintiffs elected to omit a *majority* of the claims for tactical reasons, while
27 asking this Court not to extinguish the omitted claims. They want piecemeal,
28 inefficient, costly and protracted litigation. Plaintiffs' "wait and see" approach to

1 litigating the claims in this MDL should not be tolerated by this Court. *See In re*
2 *Rezulin Prods. Liab. Litig.*, MDL No. 1348, Minute Order (S.D.N.Y. Dec. 20, 2000)
3 (Ex. 4 to Gilford Dec.) (rejecting plaintiffs' suggestion that the master complaint did
4 not "extinguish[] the claims and allegations of the previously filed class action
5 complaints" such that claims not covered by the master complaint would require a
6 separate response from defendants: "The Court directed the filing of a single
7 consolidated class complaint. This necessarily requires extinguishment of the prior
8 complaints. Plaintiffs shall comply forthwith."). Unlike the proposal suggested by
9 Plaintiffs, Defendants' proposal will clarify which claims need to be defended and
10 which parties should continue to defend this case. This will create efficiencies by
11 moving this litigation forward in a coordinated, rather than piecemeal, fashion, and
12 will avoid prejudice to Defendants by ensuring that defenses are not inadvertently
13 waived and that all Defendants are permitted to assert relevant defenses promptly.
14 *See, e.g., Clements v. Airport Auth. of Washoe County*, 69 F.3d 321, 328 (9th Cir.
15 1995) ("A main purpose behind the rule preventing claim splitting is 'to protect the
16 defendant from being harassed by repetitive actions based on the same claim.'")
17 (quoting *Restatement (Second) Judgments*, § 26 comment a).

18 Plaintiffs contend that they will be prejudiced if underlying claims are deemed
19 dismissed, because "even if such dismissal is 'without prejudice'" plaintiffs wishing
20 to re-assert abandoned claims may have difficulty seeking leave to amend at that late
21 stage and, even if leave to amend is granted, may "face defenses of limitations,
22 abandonment, waiver, and the like." Pl. Statement [Dkt. 306], at 3-4. It bears noting
23 that this predicament is one of Plaintiffs' own making, since they were supposed to
24 have filed a "consolidated complaint covering the issues in all the economic loss
25 cases," as this Court directed, and had they simply complied instead of engaging in
26 blatant gamesmanship, there would be no "abandoned" claims left to assert. Order
27 no. 1 [Dkt. 3], at 3. Moreover, to the extent that the Court is concerned that prejudice
28 to Plaintiffs might result, there are mechanisms available to avoid even the possibility

1 of prejudice caused by dismissing underlying claims. *In re Educ. Testing Serv. Praxis*
2 *Principles of Learning and Teaching: Grades 7-12 Litig.*, 517 F. Supp. 2d 832, 837-
3 38 (E.D. La. 2007) (“[A]ll causes of action in consolidated cases that were filed in or
4 transferred to this Court before January 20, 2005 that were not included in the master
5 complaint would be dismissed with prejudice if counsel in those cases did not move to
6 segregate those causes of action with 30 days.”); *In re Rezulin Prods. Liab. Litig.*,
7 MDL No. 1348, Pretrial Order No. 11 (S.D.N.Y. Feb. 7, 2001) (Ex. 5 to Gilford Dec.)
8 (allowing “any party seeking to certify claims or classes that differ from the class
9 defined, and/or the claims for which class treatment have been sought” to file separate
10 motions and holding that “[f]ailure of any party to file such a motion on or before that
11 date shall result in the striking of all class allegations from such party’s complaint
12 without further order of the Court.”); *In re Storage Tech. Corp. Sec. Litig.*, 630 F.
13 Supp. 1072, 1074 (D. Colo. 1986) (ordering that “counsel for all plaintiffs in all of the
14 civil actions consolidated had until September 20, 1985 to disavow the inclusion of
15 their clients’ claims within the amended consolidated complaint.”). As the foreign
16 Plaintiffs have demonstrated, plaintiffs that wish to protect their rights to assert claims
17 from the underlying complaints are fully aware of how such rights can be protected.
18 *See, e.g.*, Motions for Leave [Dkts. 265 & 270].

19 As substantial authority makes clear, any potential prejudice to Plaintiffs is
20 vastly outweighed by the potential prejudice to Defendants and the interest in
21 protecting the finality of the judgments that will be entered in this case. *Fed. Nat’l*
22 *Mortgage Assoc.*, 2010 WL 2940860, at *6-7, 9 (holding that defendants would be
23 prejudiced if claims in underlying suits were dismissed without prejudice rather than
24 dismissed with prejudice and further holding that the finality of judgment outweighs
25 potential prejudice to a plaintiff wishing to assert claims not incorporated into the
26 consolidated complaint). Lead Counsel was charged with consolidating the
27 underlying claims into a master complaint. They have chosen to assert in the MCC
28 what they undoubtedly feel are the claims that should be prosecuted in this action.

1 They should not be heard to complaint that their own actions prejudice Plaintiffs'
2 rights.

3 **D. Plaintiffs' Proposal Would Result in Delay and Wasted Resources,**
4 **Rather Than Efficiencies in this Litigation.**

5 In Order No. 4 [Dkt 181], the Court indicated its "intent that lead counsel act as
6 gatekeepers." Presumably, part of this role included deciding what claims should be
7 included in the MCC and which claims should not. See Tr. of Aug. 24, 2010
8 Conference, at 24 (The economic loss committee "is entitled to make its judgments as
9 to what claims should and should not be pursued."). Having a consolidated complaint
10 that reflects lead counsel's reconciliation of the differences in the various overlapping
11 complaints should result in judicial economies and efficiencies—the primary
12 prerequisite to ordering consolidated pleadings. See, e.g., *Equity Funding*, 416
13 F. Supp. at 176. However, as envisioned by Plaintiffs, the effect of the MCC would
14 be to try Plaintiffs' claims and theories in a piecemeal fashion and to protract this
15 litigation for an undetermined amount of time.

16 Plaintiffs propose that rulings on Rule 12 and Rule 56 motions "will apply to all
17 underlying complaints in constituent actions to the extent they assert the same claims
18 as the MCC." Pl. Statement at 1; Pl. Proposed Order at 2. "Similarly, rulings on
19 motions that challenge the standing of any plaintiff named in the MCC shall apply
20 equally to any underlying complaint in which that person is a named plaintiff." *Id.*
21 However, all claims asserted in an underlying complaint but not the MCC and all
22 parties named in an underlying complaint, but not the MCC, would not be affected by
23 the MCC. See *id.* ("The filing of the MCC does not, by itself, result in dismissal of
24 claims not asserted therein or of parties not named therein."). Those claims and
25 parties would continue to exist such that Plaintiffs would be permitted to resurrect
26 omitted claims or parties whenever they see fit.

27 For example, the MCC only asserts claims under California law. So, the parties
28 and the Court could spend a significant amount of time briefing and litigating these

1 claims and, if they are ultimately dismissed, Plaintiffs could simply fall back on
2 statutory claims from other states, forcing the parties to start over with briefing and
3 litigating similar, but different issues.⁴ The parties and this Court could invest
4 significant time and resources litigating the ETCS defect asserted in the MCC, only to
5 later commence litigation of the pure recall claims contained in the majority of the
6 underlying complaints. Likewise, if Plaintiffs are unsuccessful in obtaining class
7 certification with the plaintiffs named in the MCC, they could move for certification
8 of any of the hundreds of named plaintiffs from the underlying suits. Even a “win” by
9 Plaintiffs does not necessarily resolve the issue, as there is still a possibility that when
10 separate suits are remanded for trial, the underlying actions will be tried on a host of
11 differing theories and claims that were not addressed in this MDL.

12 Under Plaintiffs’ proposal, the parties and claims in this litigation would be a
13 moving target and this litigation would never be complete until every underlying
14 claim has been separately resolved. This not only defeats the efficiency requirement
15 for permitting consolidated complaints, it is also in conflict with the purposes of
16 multidistrict litigation, the law of this circuit and the clear directives of this Court.
17 Cases are only transferred pursuant to 28 U.S.C. § 1407 if they share “one or more
18 common questions of fact” and transfer “will be for the convenience of parties and
19 witnesses and will promote the just and efficient conduct of such actions.” In fact, the
20 JPML’s order establishing this MDL noted that centralization was proper precisely
21 because it would “conserve the resources of the parties, their counsel, and the
22 judiciary . . . create convenience for the parties and witnesses and will promote the
23 more just and efficient conduct of this litigation.” *See* Transfer Order [Dkt. 1] at 2.
24 There would be no efficiencies if the claims and parties asserted in the underlying
25 actions are essentially stayed while Plaintiffs move forward with their theory du jour.
26 Indeed, after several months, or even years, the parties could discover at the

27 ⁴ *See* Pl. Statement at 3 (“In the unlikely event the Court dismisses the claims
28 asserted in the MCC . . . then plaintiffs will seek leave to amend the MCC to assert
claims under other states’ laws.”).

1 conclusion of this litigation that additional pretrial briefing and discovery are needed.
2 In short, Plaintiffs' proposal represents the antithesis of expediency and efficiency.

3 The clear policy directives of this Circuit disfavor the assertion of claims late in
4 litigation "when the facts and theory have been known to the party seeking
5 amendment since the inception of the cause of action." *Acri v. Int'l Assoc. of*
6 *Machinists & Aerospace Workers*, 781 F.2d 1393, 1398-99 (9th Cir. 1986) (denying
7 leave to amend where "Plaintiffs' attorney admitted that plaintiffs' delay in bringing
8 the section 101 cause of action was a tactical choice because he felt that the causes of
9 action already stated were sufficient."); *Stein v. United Artists Corp.*, 691 F.2d 885,
10 898 (9th Cir. 1982) (denying leave to amend where plaintiff "provided no satisfactory
11 explanation for his failure to fully develop his contentions originally, and the amended
12 complaint was brought only to assert new theories, if anything, and was not premised
13 upon new facts."). MDL courts should endeavor to "avoid[] later enlargement of
14 issues and expansion or duplication of discovery," *Manual for Complex Litigation*
15 *(Fourth)* § 11.32, but that is precisely what Plaintiffs' proposal will accomplish:
16 unending and inefficient litigation that can be expanded at anytime Plaintiffs so desire.

17 **E. Plaintiffs' Proposal Would Result in Significant Prejudice to**
18 **Defendants.**

19 It is improper to use a consolidated complaint where it results in prejudice to a
20 party. *See, e.g., Garber v. Randell*, 477 F.2d 711, 717 (2nd Cir. 1973) (reversing
21 consolidation order insofar as it directed that a consolidated complaint be filed against
22 a defendant who showed fundamental unfairness and prejudice); *Equity Funding*, 416
23 F. Supp. at 176 (C.D. Cal. 1976) (explaining that a court's authority to order
24 consolidated pleadings is limited where it "causes serious prejudice to the right of a
25 party to litigate its claims or defenses."). Plaintiffs' proposal would result in
26 significant prejudice to Defendants and therefore should be rejected by the Court.

27 As an initial matter, Plaintiffs explicitly acknowledge that the situation feared
28 by Defendants may occur under Plaintiffs' proposal:

1 [I]t is not a foregone conclusion that all class members' claims will
2 proceed to judgment in the MDL. It is theoretically possible that at the
3 conclusion of pretrial proceedings, the Court will remand underlying
4 actions to their originating districts. Upon remand, plaintiffs in those
5 actions might wish to prosecute claims they originally asserted before
6 transfer but which were not litigated in the MDL because we chose not to
7 assert them in the MCC.

8 Pl. Statement, at 3. Although Plaintiffs attempt to minimize the likelihood of this
9 occurring, the risk is not as "remote" as plaintiffs contend. In fact, the chance that
10 such claims will be asserted by Plaintiffs in the future is increased given that (1)
11 Plaintiffs have ignored the claims asserted in a majority of the underlying actions and
12 (2) Plaintiffs' failure to include such claims in the MCC will not be deemed a waiver
13 of those claims under their proposal. *See New York City Employees' Retirement*
14 *System v. Jobs*, 593 F.3d 1018, 1024 (9th Cir. 2010) (holding that failure to include a
15 claim in a consolidated complaint does not waive plaintiffs' right to later assert that
16 claim). Moreover, regardless of the likelihood of the risk, the prejudice that
17 Defendants face is significant.

18 First, under Plaintiffs' proposal, because all of the underlying claims and
19 theories continue to exist, Defendants suffer the risk of evidence becoming stale and
20 lost memories of witnesses that may be crucial to their defense. *In re Eisen*, 31 F.3d
21 1447, 1453 (9th Cir. 1994) (explaining that prejudice results from loss of evidence and
22 loss of memory). Many of the underlying complaints assert claims for diminished
23 value of their vehicles as a result of the recalls and do not bring any claim based on
24 any alleged defect in ETCS. The MCC, however, has abandoned these theories in
25 favor of an alleged defect in ETCS as the basis for damages. The recall claims
26 involve unique legal issues not present in ETCS claims, including unique preemption
27 and primary jurisdiction arguments and unique issues related to standing, mootness,
28 and injury. Likewise, because the MCC only asserts claims under California law, a
wide variety of state statutory and common law provisions asserted in the underlying
complaints are absent from the MCC. Again, many of these claims are subject to

1 differing defenses requiring different evidence and factual development.⁵ Defendants
2 would be prejudiced merely by the fact of Plaintiffs' delay in asserting these claims.
3 *See In re Phenylpropanolamine (PPA) Prods. Liab. Litig.*, 460 F.3d 1217, 1227-28
4 (9th Cir. 2006) ("The law also presumes prejudice from unreasonable delay") (citing
5 *Eisen*, 31 F.3d at 1453; *Morris v. Morgan Stanley & Co.*, 942 F.2d 648, 652 (9th Cir.
6 1991)). "The fact that this is an involved, complex case increases the prejudice from
7 the delay. Early preparation and participation are essential under such
8 circumstances." *Anderson v. Air West, Inc.*, 542 F.2d 522, 525 (9th Cir. 1976).

9 Second, the MCC did not include as defendants numerous entities named in the
10 underlying suits. These include both Toyota entities and non-Toyota entities,
11 including component part suppliers and dealerships. *See* List of Defendants Named in
12 Underlying Actions (Ex. 2 to Gilford Dec.). Under Plaintiffs' proposal, these
13 defendants must either begin preparing a defense while not having the discovery
14 advantages available to a party or risk delay causing prejudice to their defense. For
15 example, if the claims of these omitted defendants are not addressed in this MDL, they
16 could find that their claims will need to be litigated after remand, including briefing
17 on pretrial motions specific to these defendants and conducting additional discovery.
18 Not only would this result in significant inefficiencies and defeat the entire purpose of
19 multidistrict proceedings, but such a delay would also cause significant prejudice to
20 these defendants, some of which should have been dismissed months or years earlier,
21 but who were denied the opportunity to present a defense. *See, e.g., Anderson*, 542
22 F.2d at 525.

23 **III. CONCLUSION**

24 For all of the reasons stated above, Defendants respectfully request that the
25 Court enter the Proposed Order attached hereto.

26
27
28 ⁵ From the absence of lemon law and RICO allegations to the lack of a personal-injury class, a comparison of the MCC to the underlying cases is replete with similar examples.

1 Dated: September 9, 2010 Respectfully submitted,
